

Skills

DATA SCIENCE

- Time Series Data, Cross-Sectional Data, Networks, Anomaly Detection, Data Visualization, Data Wrangling, Dashboarding, Docker, Spark

LANGUAGES

- Statistics/Data Science: R, Python, Matlab, Stata
- Other: Latex, Microsoft Office, Markdown

Experience

ING Bank N.V. - Financial Crime Analytics

Nov 2019 - present

DATA SCIENTIST

Amsterdam

- Part of a big team of 20-25 FTE's that develop models to detect money laundering and other illegal financial activities
- Creating two Python packages for: 1. streamlined unsupervised anomaly detection and 2. extracting network features from transaction data
- Involved in creating a containerized, exportable product that helps detect smurfing transactions

ING Bank N.V. - Finance Analytics

Feb 2018 - Nov 2019

DATA SCIENTIST

Amsterdam

- Part of a small team of 2-3 FTE's that service employees in Group Finance via analytics projects
- Created three R packages for time series forecasting, detecting/correcting anomalies and data exploration
- These R packages are currently open sourced and maintained by me. Click for [tstools](#), [tsclean](#), [tsforecast](#)
- Deploying projects via local and docker solutions
- Running workshops and trainings in R, Python and statistics
- Coaching IT trainees in data science work
- Engaging stakeholders to help them become more data-savvy and understand what they can (and can't) do with data science

VU University Amsterdam

Sep 2014 - Aug 2018

PHD RESEARCHER IN ENVIRONMENTAL ECONOMICS

Amsterdam

- Thesis title: 'The Value of (Avoiding) Malaria' ([link](#), graduated 2nd of May 2019)
- Supervisors: Roy Brouwer & Richard Tol
- Links to completed papers:
 - Valuing malaria morbidity ([link](#))
 - Preference updating in public health risk valuation ([link](#))
 - Public preferences and valuation of new malaria risk ([link](#))
 - Attitudes towards public health spending ([link](#))
- This was financed by an EU FP7 project: HELIX ([link](#)). This involved multidisciplinary collaboration with researchers from mathematics, physics, engineering, geography and sociology. I also organized and executed a field survey in Mumbai, India between March - June 2016 as part of this project.

VU University Amsterdam / Tinbergen Institute

Sep 2013 - Feb 2018

TEACHING ASSISTANT

Amsterdam

- Courses: Statistics/Econometrics (masters level - including coding in SPSS and R), Mathematics (masters level - linear algebra and advanced calculus)

Education

Amsterdam/Rotterdam, The Netherlands

Sep 2012 - Aug 2014

MPHIL IN ECONOMICS

Tinbergen Institute

- Specialization: Applied micro-econometrics
- Thesis: 'What explains willingness to pay for avoiding morbidity risk due to malaria? Results from a global meta-analysis' (later on became first chapter of PhD thesis)

Ankara, Turkey

Sep 2008 - Jun 2012

BSc IN ECONOMICS

Bilkent University

- Specialization: Academic (i.e. a special focus on applied mathematics and statistics)
